2 HEAD CORNER CUTTING. The Corner Trim Cutting Machine originates the two head semi-automatic unit. Sturdily built, easy adjusting : by introducing the book block and / or the card boards the 2 knives come down to cut the corners. The machine will meet with the needs of the small and medium production.

Highlights

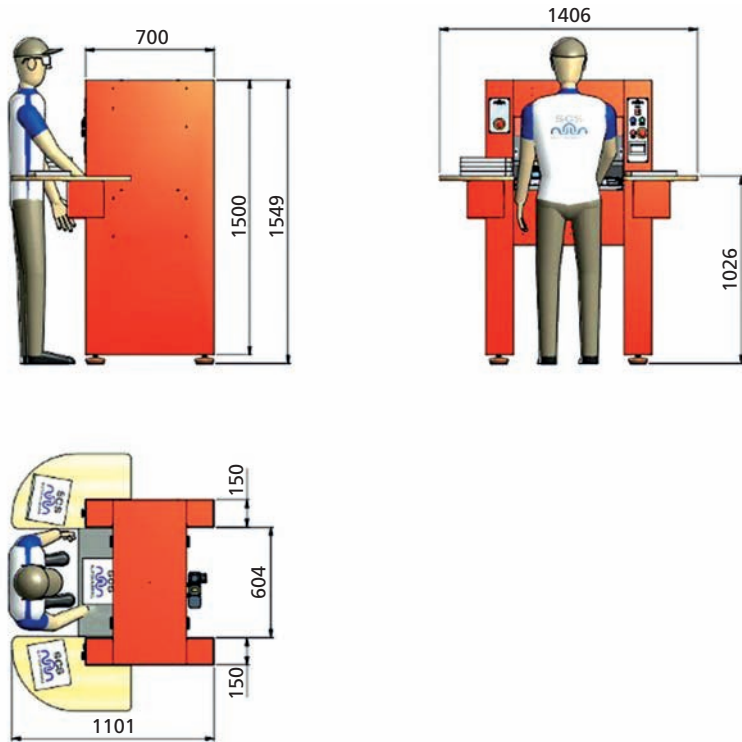

- Simplicity of Operation
- Quick and Easy Makeready
- Easily Moveable
- Reduced Floor Space

Operation

Book blocks and card boards are insert manually into the corner cutting station. In one passage the machinery allows the perfect cutting of the sides of the 2 corners. Micrometric adjusting by simply operating on the display and side jogger adjusting.
