

SCS MAKES ANNOUNCEMENT: PARTNERSHIP WITH SOLEMA USA FOR NORTH AMERICA!

We are excited to announce a distribution agreement with **Solema USA** for the exclusive sales and technical support of SCS equipment in North America. This partnership is ushered in with the most recent sale of our equipment in Indiana, as we sought to help our customers create and integrate the systems they needed to grow their business.

Together, we hope to supply and grow North America with a full range of SCS equipment, depending upon the customer's needs. From cutting, to corner rounding or trim & perf.. we see great opportunity in the market for these artisan machines and look forward to putting our ideas into motion, serving customers both large and small.

For more information about SCS Automaberg equipment in North America, please contact Solema USA directly or reach us here:
